

EV Charging Stations

EV Charging Stations

Through our partnership with Sun Country Highway, ERTH is helping advance the electric vehicle charging station network in southwestern Ontario.

Contact Us

In 2013, ERTH teamed up with Sun Country Highway to help roll-out Electric Vehicle (EV) charging stations across Ontario. This green initiative aims to rapidly accelerate the adoption of electric vehicles and lower carbon emissions in the transportation sector. With Sun Country Highway, we have set out to provide competitively priced advanced technology products to help drive the future network for electric vehicles travelling throughout Ontario.

Sun Country Highway is a progressive Canadian owned company leading the electric vehicle movement across the nation by raising awareness and promoting the adoption of zero emission transportation. Through the partnership with Sun Country, ERTH has become a leading installer of charging stations in Ontario. ERTH has a proven track record of working with municipalities and businesses building sustainable infrastructure and maintaining the systems as they expand and evolve.

Services include:

- Siting new locations
- Design, build

- Maintain & repair
